VAMO Forensic Services & Pricing Guide

To keep our pricing as straightforward and simple as possible, all VAMO services are offered at a universal flat rate of \$850. There are no hidden fees, no complex tiers, and no surprises.

1. Independent Medical Opinions (IMOs) / Nexus Letters

We charge a standard fee of \$850 for a medical opinion, and we will provide up to three separate independent medical opinions for that price. Our medical team prepares these comprehensive, forensic independent medical opinions in bundles of up to three conditions. If your claim requires more than three distinct medical opinions, they are billed in additional three-opinion increments.

Number of Medical Opinions Needed	Total Cost	Breakdown
1 to 3 Medical Opinions	\$850	Flat rate for your first 1-3 conditions.
4 to 6 Medical Opinions	\$1,700	Initial \$850 + one additional \$850 invoice.
7 to 9 Medical Opinions	\$2,550	Initial \$850 + two additional \$850 invoices.

2. Specialized Clinical & Medical Opinions

Certain complex conditions require specialized medical matching. Medical opinions authored by our clinical specialists are billed as standalone services at our universal flat rate:

- Psychological Medical Opinion: \$850
- Audiological Medical Opinion: \$850

Example Case: If you require a medical opinion for a lumbar spine condition and one for a mental health condition, these represent two distinct specialties and will be invoiced at \$850 x 2 (\$1700).

3. Advanced Assessments & VA Disability Forms

If your claim requires DBQs or specialized non-medical evaluations, each independent assessment is billed at our universal flat rate of \$850:

- Telemental Health Psychological Assessment (Includes Mental Disorders DBQ): \$850
- Comprehensive Vocational Assessment: \$850
- Aid & Attendance Assessment (Completed via VA Form 21-2680): \$850

Why VAMO's Pricing Structure Works For You

- **Predictable Expenses:** You know the exact cost of your forensic evidence before our research team ever reviews your records.
- **No Multi-Tiered Confusion:** We do not charge more for "complex" physical conditions. A back condition or a cardiovascular nexus carries the exact same flat rate.
- **Elite Expertise:** Every flat-rate service is backed by our multi-disciplinary division of Harvard and Vanderbilt-trained medical experts working alongside former senior VA rating experts.
- **Free Case Review:** If we review the records and are unable to prepare the medical opinion (or other service) you need, there will be no charge whatsoever.

4. The VAMO Guarantee: Standing Behind Our Work

The VA frequently attempts to route claims to outsourced contract examiners in an effort to counter competent private evidence. We do not abandon you if the VA challenges our findings.

If the VA requests a contract medical opinion to negate or dispute our report, our clinical and research team will prepare a formal, comprehensive rebuttal addendum responding directly to their examiner. This Rebuttal Addendum is a Free Service.

Our Commitment: We provide this Addendum service at an absolute flat fee of \$0 because we believe in standing behind the integrity of our work and, more importantly, standing behind the veterans and representatives who place their trust in us. When we author a medical opinion, we stand behind it all the way to a final rating decision.

About VAMO

VAMO is a highly specialized medical research group whose expertise is in exploring the effects of military injuries and their resulting disabilities. Our research team combines medical experts with VA rating experts and the VA's former National Medical Opinion Quality Manager. With over 125 years of combined VBA and VHA work experience, we possess unparalleled expertise in interpreting medical literature and VA regulations governing medical opinions for VA compensation claims.
